The wallpapers included with this package are: \ Beach \ Mountains \ Ocean \ Cityscapes One click and you will be mesmerized by the wallpapers. Grab this package today and enjoy a theme that will add a new dimension to your desktop. Q: How to check if the current user has certain permission in ASP.NET Core 2 I am trying to see if the current user has a specific permission. So far I have the following code in my controllers: [HttpGet] [Authorize(Roles = "Admin")] public async Task Get() { await _context.GetLog().FindAsync(); return View(); } How can I check if the current user has the "Admin" role in a global controller? A: If your authorization controller derives from Microsoft.AspNetCore.Authorization.AuthorizationService, you can just use that, e.g. [Authorize(Roles = "Admin")] public class MyController : AuthorizationService { public async Task Get() { await _context.GetLog().FindAsync(); return View(); } } Or you could do something like this in your Startup.cs configure method, which will allow you to extend the AuthorizeAttribute attribute class for a given controller, e.g. services.AddAuthorization(options => { // add your own custom attributes here options.AddPolicy("MyRole", policy => policy.RequireRole("Admin")); }); I think that's all you need to do to get it working. Q: Nested hash or list in Perl I have the following csv file: FILE1,A,100,B,200,C,300,D,400,E,500 FILE2,A,100,B,200,C,300,D,400,E,500 FILE3,A,100,B,200,C,300,D,400,E,500 FILE4,A,100,B,200,C,300,D,400,E,500 FILE5,A,100,B,200,C,300,D,400,

System Requirements:

OS: Windows Vista, 7, 8, 10 Processor: Intel Core 2 Duo or equivalent Memory: 1 GB RAM Hard Disk: 2 GB available space Sound Card: DirectX 9.0c compatible sound card DirectX: DirectX 9.0c compatible graphics card Additional Notes: Recommended to install on a clean system, and a large directory. Get ready for a serious shooter with the jaw dropping graphics and physics found only in COD: WWII. Don't let the fact that the game is based on the
